

Earn Tuition Credits with Shop UMEI

Shop UMEI is now offering a Tuition Credit Incentive to UMEI students and their families. And, there's more....families planning for the future education of their children at UMEI can already start earning tuition credits!

Purpose:

The primary purpose of Shop UMEI has been to raise revenue for the general operating needs of the school with no actual cost to supporters. In order to continue to grow this programme, parents of current and future students are now being given the opportunity to earn credit toward their children's tuition.

How it works:

Bulk quantities of gift cards are purchased by UMEI at a discount. The cards are then sold to participating families at face value. Families can then sell as many cards to relatives/friends/neighbours as they wish. 50% of the discount is passed on to a family in the form of a tuition credit, and 50% continues to go to the school's general operating account.

As always, dollar for dollar value is received when purchasing from SHOP UMEI. The actual donation is being made by the store.

Everyone wins with this new initiative:

The school continues to generate funds for operations, while making tuition more affordable for families.

It's easy to sign up:

Registration forms, easy-to-use order forms & more detailed information about this exciting new opportunity for families are available at the UMEI office (Monday thru Friday, 8 am to 4 pm) and SawatzkyBalzer Law firm.

For families who sign up, there is absolutely no downside; there are no minimum or maximum sales requirements, and no obligation at any time to continue with the programme.

Available gift cards: FreshCo, Loblaws (Superstore, No Frills, Zehrs), Tim Hortons and Jose's are always available in stock. Additional gift cards for over 50 retailers are available to order. Even more tuition credits can be earned by purchasing gas at Superstore.
