

UMEI Christian High School
GRADE 10
Course Selection 2023-2024

Student Name: _____

Compulsory Courses:

Math
Religious Studies
Civics and Careers

Science
English
Canadian Geography

Choose the appropriate course for your future plans:

_____ Academic English OR _____ Applied English

Electives – Please choose one from each section:

Semester 1:

Choose the appropriate course for your future plans:

_____ Jr. Music OR _____ French 10

Non – Semestered:

_____ Robotics*

OR

_____ Jr. Art

*students who have taken Robotics in grade 9 may take it again in grade 10

_____ Vocal Choir

OR

_____ Hospitality & Tourism

Semester 2:

Choose the appropriate course for your future plans:

_____ Jr. Physical Education OR _____ Jr. Drama

Course Descriptions:

AMU2O

This course emphasizes the creation and performance of music at a level consistent with previous experience. Students will develop musical literacy skills by using the creative and critical analysis processes in composition, performance, and a range of reflective and analytical activities. Students will develop their understanding of musical conventions, practices, and terminology and apply the elements of music in a range of activities. They will also explore the function of music in society with reference to the self, communities, and cultures.

FSF2D - Core French

This course provides opportunities for students to communicate in French about personally relevant, familiar, and academic topics in real-life situations with increasing independence. Students will exchange information, ideas, and opinions with others in guided and increasingly spontaneous spoken interactions. Students will develop their skills in listening, speaking, reading, and writing through the selective use of strategies that contribute to effective communication. They will also increase their understanding and appreciation of diverse French-speaking communities and will develop skills necessary for lifelong language learning.

(Prerequisite: Core French, Grade 9, Academic or Applied)

TEJ2O - Robotics – Physics of Engineering

This course develops the students' understanding of the basic concepts and principles of robotics. Using the LEGO Mindstorms system, students will be actively involved in the design, construction and application of experimental apparatus to verify accepted principles in physics and engineering. Students will employ basic programming techniques, data collection using probe ware, and mathematical techniques for data analysis in the application of topics in mechanical, electrical and structural engineering.

AVI2O - Jr. Visual Arts

This course is exploratory in nature, offering an overview of visual arts as a foundation for further study. Students will become familiar with the elements and principles of design and the expressive qualities of various materials by using a range of media, processes, techniques, and styles.

AMV2O - Music – Vocal Choir

This course is designed for students wishing to learn about singing and participate in a choir setting.

TFJ2O – Hospitality & Tourism

This course provides students with opportunities to explore different areas of hospitality and tourism, with an emphasis on food service. Students will study culinary techniques of food handling and preparation, health and safety standards, the use of tools and equipment, the origins of foods, and event planning, and will learn about tourism attractions across Ontario.

PPL2O – Jr. Healthy, Active Living

This course enables students to further develop the knowledge and skills they need to make healthy choices now and lead healthy, active lives in the future. Through participation in a wide range of physical activities, students develop knowledge and skills related to movement competence and personal fitness that provide a foundation for active living. Students also acquire an understanding of the factors and skills that contribute to healthy development and learn how their own well-being is affected by, and affects, the world around them. Students build their sense of self, learn to interact positively with others, and develop their ability to think critically and creatively.

ADA2O – Jr. Drama

This course provides opportunities for students to explore dramatic forms, conventions, and techniques. Students will explore a variety of dramatic sources from various cultures and representing a range of genres. Students will use the elements of drama in creating and communicating through dramatic works. Students will assume responsibility for decisions made in the creative and collaborative processes and will reflect on their experiences.
