

# 2024-25 CORPORATE SPONSOR

# PROGRAM

# BOARD OF DIRECTORS WELCOME MESSAGE

**Mathew Suta**  
Chair, Board of Directors

At UMEI Christian High School, we believe that a strong foundation in education grounded in Christian principles prepares young minds to make a positive impact in the world. Support from local businesses and business owners has played a crucial role in this mission, helping us provide high quality education and a nurturing environment where students can flourish academically and spiritually. Our school continues to see the benefits of these contributions. With enrollment numbers continuously increasing, student life flourishing, and strengthening community engagement, UMEI is in position to maintain healthy growth and expand our reach in the community as interest in private Christian education grows.

Donating to our Corporate Sponsor Campaign helps support UMEI as we continue to foster academic excellence, character development, and spiritual growth in our students. Your contribution ensures our school's long-term growth, giving us the opportunity to develop new ways to engage the minds and souls of our youth in addition to maintaining our strong arts, robotics, sports, and academics programs. I invite you to join us and be a part of the exciting future of our school.

The Corporate Sponsorship Program's goal is \$90,000 for 2024. We appreciate your donations and invite you to visit our campus to see the UMEI Difference for yourself; the sound of music coming from the chapel, innovation in our new Robotics Zone, and warm fellowship between students. Please consider donating at one of our five levels and, if you've donated before, to move up a level. Together we will continue our legacy that empowers the next generation to lead and serve our community.

# HIGHLIGHTS

## OF OUR YEAR

### ENRICHED FRENCH

UMEI is excited to announce its new Enriched French program! This program features authentic, action-oriented French learning beyond classroom instruction. Because of the small class sizes and, supportive learning environment, UMEI's qualified staff can promote more cross-curricular learning with French.

### SUCCESS IN ROBOTICS

UMEI's Robotics teams started the year strong with success in the FIRST Tech Challenge. After placing very well in Windsor and Kingston qualifying matches, the teams are off to Provincials to compete for a spot in worlds in Houston, TX.

### SERVING OUR COMMUNITY

Service continues to be a central focus for UMEI students. This year so far, the students have volunteered at Hospice, the Leamington Mennonite Home, Thrift on Mill, the Gleaners, the Food Hub and St. Vincent de Paul. They raised money for the Salvation Army Food Bank and are participating in the Coldest Night of the Year walk for the Leamington Community Hope Centre.
